Overview of ILMS – SOUL 3.0 at Langta Baba College

The Integrated Library Management System (ILMS) software used by Langta Baba College, Giridih, Jharkhand is the Software for University Libraries (SOUL 3.0) developed by the INFLIBNET (Information and Library Network) Centre and installed in October 2023. This software is specifically tailored to meet the library management needs of colleges and universities, ensuring effective and streamlined operations in handling library resources. INFLIBNET also trained our Librarian in the use of software.

1. Purpose and Functionality:

The SOUL software at Langta Baba College is designed to automate and manage various library functions, making maintaining a comprehensive and well-organized collection of books, journals, and other learning resources easier. It supports library operations like cataloging, circulation, acquisitions, serials management, and more.

2. Key Features of SOUL Software:

- User-Friendly Interface: The software provides a simple, easy-to-navigate interface that allows both library staff and users to efficiently access and manage resources.
- Modules: SOUL consists of several modules including:
 - Acquisition: Manages the purchase of books and other materials.
 - Cataloguing: Facilitates systematic arrangement and cataloging of library resources.
 - Circulation: Handles issue, return, and renewal processes, along with fines and member management.
 - Serial Control: Manages journals, magazines, and other periodicals.
 - OPAC (Online Public Access Catalogue): Allows users to search for books, journals, and other resources available in the library.
 - Customization: The software is adaptable to meet the specific needs of the college, allowing for customization based on local requirements and user preferences.
